

To Keep or Not to Keep? The US Electoral College and Presidential Representativeness
Evan Butts

In what ways does the Electoral College promote fairness? In what ways is it unfair? Should the popular vote be the determining factor in presidential elections? Are there compelling moral reasons for continuing to use the Electoral College?

Are there reasons to oppose increasing the number of Representatives? Why might it be meaningful to distinguish between voters in different states? That is, are there reasons for keeping the presidential votes registered by Oregonians and New Yorkers separate?

In what ways do the distribution of state's representatives in the House and the Electoral College hinder our commitment to "one person, one vote"?
